DETAILED ACTION

Request for Continued Examination (RCE)

1. A request for continued examination (RCE) under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 7/21/05 has been entered. Claim 77 was amended. No claims were added or canceled. Therefore, claims 77-96 are currently pending. An action on the merit follows.

Those sections of Title 35, US code, not included in the instant action can be found in previous office actions.

Reasons for Allowance

2. The prior art does not teach or fairly suggest Applicant's claimed method for analyzing a sample involving detecting radiation from particles or molecules in a measurement volume of the sample. The closest prior art is Qian et al. (Qian, H.; Elson, E. L. "Distribution of molecular aggregation by analysis of fluctuation moments" *PNAS* 1990, 87(14), 5479-83), which teach that moments of the photon counting histogram can be used to monitor occupancy and brightness of a mixture of molecules (i.e., a 1-mer and 30-mer were used). Qian et al. compared the values of the first, second and third order moments to extract the values for the occupancy and brightness. However, the reference does not teach or suggest fitting the histogram directly as described in the instant case. In addition, the two methods differ in their treatment of the shape of the

detection volume. Furthermore, Applicant's amendments and/or arguments overcome the 112, second paragraph issue for the reasons stated in the 7/21/05 Response and also cite various passages in the specification where support for the currently amended claim language can be found (e.g., see 7/21/05 Response, pages 7-9 and cited passages in specification).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
